

# FortiFlora®

## Medical Indications:

FortiFlora is recommended as a probiotic supplement to help with the following:

- Diarrhea associated with microflora imbalance
- Acute enteritis
- Diarrhea associated with stress, antibiotic therapy, and diet change
- Poor fecal quality in kittens
- To promote a strong immune system
- To enhance palatability

## Medical Contraindications:

- Severely immune compromised cats

## Gastrointestinal Health:

- Probiotic supplement for the dietary management of kittens and adult cats with acute and chronic diarrhea
- Contains a probiotic proven to promote normal intestinal microflora
- Proprietary microencapsulation process for enhanced stability
- Contains a guaranteed level of viable microorganisms
- Increases level of beneficial bacteria
- Decreases the level of *Clostridium perfringens* in cats

## Immune Health:

- Promotes a strong immune system
- Contains antioxidant vitamins C and E
- Pilot study suggests supplementing *Enterococcus faecium* SF68 may decrease the incidence of conjunctivitis associated with feline herpes virus-1

## General Health:

- Shown to be safe for use in growing and adult cats
- Easy to feed
- Enhances palatability
